

TOP 10 STEPS FOR BUILDING A CYBER-SMART TEAM

1 TRAIN YOUR TEAM
Engage them in interactive cybersecurity sessions.

2 ENCOURAGE OPEN COMMUNICATION
Make cybersecurity a regular discussion topic.

3 LEAD BY EXAMPLE
Demonstrate your commitment to cybersecurity.

4 ESTABLISH CLEAR GUIDELINES
Develop accessible security policies and highlight best practices.

5 RECOGNIZE GOOD PRACTICES
Reward employees who contribute to cybersecurity.

6 MAKE IT PERSONAL
Explain to your employees how cybersecurity protects your company and their personal information.

It's a myth that cybersecurity is just the IT department's responsibility. Every employee plays a crucial role in protecting your business. Here are the top ten steps to build a cyber-smart team:

We are a cyber-smart team!

7 TEST YOUR TEAM'S READINESS
Conduct regular phishing simulations.

8 ENCOURAGE EMPLOYEES TO SPEAK UP
Make reporting suspicious activities easy and safe.

9 HELP EACH EMPLOYEE OWN THEIR ROLE
Provide tailored training for each employee.

10 UNITE YOUR TEAM
Emphasize shared responsibility for cybersecurity.
